Below are the instructions on how to install Weapons and Whips on CurseForge.

If you have not already installed CurseForge on your device, refer to the page, 'installing CurseForge'.
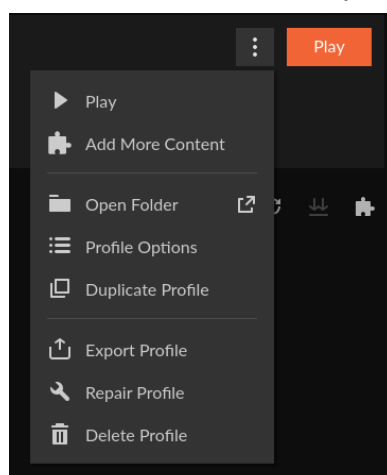

1. Click Create Custom Profile.

2. Name the new profile Weapons and Whips. Set the Minecraft version to 1.20.1.

3. Click the three dots and select Open Folder.

4. Double click mods.

5.

Download Weapons and Whips from http://weaponsandwhips.org/downloads/ and paste the file into this folder.

6. Click Play in CurseForge.

Thanks!
